## Work

### Featurist

1st Aug 2016 - 20th Jul 2023

### Principal developer

<https://archive.featurist.co.uk/>

At this London-based consultancy, I worked on various client projects, developing high quality server and client side code.

## Highlights

- Worked on greenfield projects and legacy system replacements, utilising a diverse tech stack from Node.js to Rails.
- Gained insights into various industries through diverse projects, which improved my problem-solving approach.
- Worked both solo and as a part of client team, sharing my expertise, and coaching when necessary.
- Took on devops tasks when necessary.
- Contributed to open source, wrote blog posts, and spoke at tech events.

Funding Circle (UK)

27th Apr 2015 - 30th Jun 2016

**Software Developer**

<https://www.fundingcircle.com/uk/>

Helped various teams with product and infrastructure development.

Highlights

- Upgraded the main FC Rails app to modern version of ruby (which was previously deemed too hard).
- Developed a way to run the entire FC stack locally, thus boosting productivity across the entire tech department.
- Worked on ETL side of FC app integration with Salesforce.

The People's Operator

1st Mar 2015 - 1st Apr 2015

**Software Developer**

<https://www.thepeoplesoperator.com/>

A greenfield project to build a mobile operator store site for their launch in the US.

Appear Here

1st Oct 2014 - 1st Jan 2015

**Software Developer**

<https://www.appearhere.co.uk/>

Worked as a part of small agile team on various aspects of the site: searching for places, booking places, landlord onboarding, admin backend and more.

Highlights

- Worked in a very fast paced startup environment, often working on multiple things at a time.

Shopa

1st Jun 2012 - 1st Aug 2014

**Software Developer**

<https://shopa.com/>

Building tech for a disruptive startup.

Highlights

- Worked both solo and as a part of a team.
- Quickly pivoting as the business was actively looking for a winning strategy.

BBC Public Service

1st May 2011 - 1st May 2012

**Developer-in-test**

<https://www.bbc.com/>

Helped BBC Future Media teams to integrate TDD/BDD into their projects.

Highlights

- Worked closely with product owners to define software specs
- Developed a testing tool - RestAssured - that is still in use in the BBC.

And more...
